Mayor Albert Isen opened his campaign for re-election this week with a series of public addresses before civic groups and home "Kaffee Klatches".

"It is my belief," he stated, "that the Mayor, as the official representative of the City of Torrance, have two prerequisites for the office. One is that he be a person of good character and integrity, the other is that he have the necessary background and ability to properly and efficiently conduct the business of the city."

"I have been a lawyer since 1920, and an instructor of business law and real estate for a number of years. This legal training has been very helpful to me in making important decisions on matters coming before the City Council. Some of these matters involved multi-million dollar transactions and my legal experience proved extremely useful."

"Torrance has been my home for 45 years. The welfare of the city has always meant a great deal to me. Long before I took active part in city government I followed with close interest what went on. It was because of my dissatisfaction with the one-sided and inefficient way the city's business was being transacted that I decided four years ago to offer my services to the city. Many changes have been made since then for the better, and I like to feel that I have had a part in community improvement. It is certainly worth working for."

### Truck Collision Causes Injury

Robert Edward Livingston, 45, of 9216 Tujunga Canyon, Torrance, was injured when his pickup truck struck a parked stake truck early Monday morning, Torrance police reported.

The collision occurred on Pacific Coast Highway near Ocean ave. Equipment which tumbled from Livingston's truck spilled into the roadway, causing damage to the auto of Leonard Russell Bowman, 42, a U.S. Navyman, whose car struck it, officials said.

### The Dentist Says:

By DR. ERNEST J. TARR

### Place Dentures Immediately

#### After Extraction

"What is an immediate denture?"—asks Mrs. L. R. of Harbor City.

An immediate denture is one where the remaining natural teeth are removed and the denture is placed directly in the mouth, so the patient does not have to go without teeth.

Usually the front teeth are left. Then when the denture is ready, these are extracted and the denture inserted.

As the gums heal, the denture will gradually loosen up and sore spots may develop as the denture continues to settle. If the denture becomes too loose, your dentist may recommend some form of adhesive to help you until the gums are completely healed.

The denture can then be refitted, or in cases where the change is so great that the bite has changed, the dentures may have to be remade.

Dental Work Done in Evenings

"I work during the day and can't get off to see the dentist. I have a lot of dental work to be done. What can I do about it?"—writes Mrs. W. R. of Torrance.

There are very few dentists who are open evenings and even those that are open at night only take preferred patients.

I have realized the importance of this situation for a long time and in an attempt to remedy it, I keep my office open until 7:00 p.m. Monday through Friday.

These hours are open to everyone and my low fees remain the same. I feel it is my duty to the community to offer a dental health service at night and I believe mine is the only dental office open evenings regularly in the Torrance-area.

So, if you wish an evening dental visit, just drop into the office or make an appointment by phoning me at FA. 8-0250.
